

LICENCES

Before participating in an open event run under SARA Rules, competitors require to hold a current Racing Licence. The licence includes insurance cover. Licence applications must be submitted with full details, and signed, via your nominated club representative, i.e. Secretary or Membership Secretary etc. Individual applications will not be accepted.

Fees agreed at the SARA AGM on 2/11/03 as follows:-

- Senior £23
- Student £17
- Junior £11
- Cadet £5

A surcharge for racing without a licence will have the effect of doubling the licence fee, i.e. following a demeanour a Senior will pay £23 plus £23 licence fee equals £46, etc.

A student has been defined as a Senior in FULL TIME education.

All Licences processed now will be valid until 31/12/04.

Competitors will be required to produce their licence at regattas and have it punched following a qualifying win. Regattas will be entitled to withhold prizes until licences have been produced. The ARA confirms that production of a SARA licence may also be required in England by Scottish crews. When applying for a new licence the old licence, where appropriate, will require to be submitted with the application with the form.

Holders of a valid SARA Licence can now obtain free access to the water at Strathclyde Park for training etc on presentation of their licence.

From the foregoing it will be noted that care requires to be taken of the licence, as a replacement will not be issued at short notice. A replacement fee of £2 must be submitted before a second licence will be issued.

Licence applications must be accompanied by the appropriate fee payable to SARA and sent to the Convenor of Racing Control at the address below. Two weeks should be allowed for processing and this should be noted in relation to entry closing dates.
