

# Scottish Indoor Rowing Championships 2009

## Online Entry and Payment System 2009

For the 2009 Championships the Scottish Amateur Rowing Association is trialling an online entry and payment system. There are additional costs required to implement the system and as such there will be an additional charge to those who make use of the online system of £1 per event entered.

The online system will allow you to make payments by credit/debit card and provide you with an immediate confirmation that your entry has been received and accepted.

To access the online entry system, go to

[https://www.sportident.co.uk/entries/event.php?event\\_id=176](https://www.sportident.co.uk/entries/event.php?event_id=176)

You will be required to provide login details. Once completed you may make multiple entries for yourself and other members of your club. You will then proceed to a secure online payment website.

We hope that the online system is a useful helpful addition to the championships for all competitors. We would welcome feedback from all using the system.

Best Regards

Scottish Rowing

### **Important Information:**

- Ensure that you read the entry documents before making your online entry. In particular take note of the correct event name and event number before proceeding to the online entry site.
- The online system only allows payments to be made for entries via credit/debit card. If you wish to make payment via cheque you should enter using the paper entry form.
- Entries made on the online system but not accompanied by a credit/debit card payment will not be accepted.
- The website contains an information section detailing the number of entrants. Please note that as we are trialling the system this section will only contain information from those who have entered online.
- The organisers are offering a free entry in the open category for any competitor who enters a senior age group category. The online system is unable to process this "free entry". Competitors wishing to use the online system and enter both events will need to pay for both events and then claim a refund at registration on the day of the event.
- Competitors wishing to enter the university coxswains' event will be unable to use the online system.
