

Questionnaires are a good way of collecting information from all of your Learn 2 Row (L2R) participants in a relatively short period of time at a low cost (if not free!). Ensure you are circulating your participant experience survey shortly after the L2R course has finished, so that the experience is still fresh in their minds. The results from the questionnaire could be circulated amongst the coaches, volunteers and helpers that were involved in running the course and with your Club Committee to take on board for future L2R courses.

Two survey platforms to consider using are:

- 1. Microsoft Forms**
- 2. Survey Monkey**

Below are some examples of questions you could include in your short Participant Questionnaire.
